

**1. When and how did you discover your interest in Art?**

Art has always been a part of my life and it is a real chance to be born into a family where Art is at the heart of conversations and activities.

So creating has always been natural to me.

Photo came quite late. About ten years ago.

Very quickly this became my indispensable means of expression.

**2. Tell us a little about the artworks on display: which is the chief topic and how inspiration come out?**

My Artworks on display are photos of flowers, or I would rather say, x-rays. so much I felt I was getting back to the heart of them. This fascination for flowers began two years ago. they express for me a true BREATH which become indispensable for me to transmit in this period.

**3. what are your artistic projects for the future?**

A lot!! A big exhibition in Paris in september as the winner of "Objectif Femmes". and another huge one but I can't talk about yet.

On the creative side, I let myself be carried by my constantly boiling desires.
